# Let Us Show You The World’s Best Places To Live, Retire, And Invest Overseas

Dear reader,

For more than three-and-a-half decades, it has been our mission to showcase the world’s best options for living, retiring, and investing overseas through conferences, summits, and webinars in the world’s top retirement and investment havens.

You can live better for less... you can enjoy the retirement you’ve dreamed of your whole life even if your retirement budget is far smaller than you hoped it would be... and you can invest for cash flow and upside while having the adventure of your lifetime.

That’s the starting point for every event we host.

For all of our events—both in-person and virtual—we bring together hundreds of the world’s top experts on living, retiring, and investing overseas... as well as dozens of real-life expats—folks just like you—already living amazing new lives in dreamy places across the globe from Panama, Belize, Mexico, the Dominican Republic, Brazil, Colombia, and Ecuador to Portugal, Italy, France, Spain, and beyond.

Ours is a big, beautiful world alive with opportunity for fun, for reinvention, for adventure, and for profit. It’s time to start searching for the best place to live your best life.

We look forward to meeting you at one of our events very soon.

Bon voyage,

# PANAMA CONFERENCE

The World's Premier Live, Retire, And Invest Overseas Choice

February 15–17 | Panama City, Panama

**Panama** has long been recognized as a top choice for living, retiring, investing, buying property, and doing business overseas. This little country offers something for everyone. As a result, expats have been flocking here for decades, and the foreign retiree's path is well worn. Making friends and settling in is a breeze.

Panama's *pensionado* visa is famous the world over, and seniors in this country are treated with the highest respect. As a retiree here, you'll enjoy the Red Carpet Treatment and can save as much as 50% on everything from restaurant meals and in-country airfares to prescription medicines and closing costs on your new beach house.

*This little country with two long coasts, one with crashing Pacific waves and the other with crystal-blue Caribbean waters, is also a top choice for investors, thanks to its tax-haven status, its international banking center, and the rock-steady growth of its safe-haven property market.*

Panama's capital city is a top choice for living a luxe life... and outside Panama City you'll find options for retiring well on a budget of \$1,300 per month or less. You can get by without speaking Spanish, and health care is of an international standard and a bargain. Health insurance can cost \$155 per month or less. The infrastructure is of a high standard. This is a place where things generally work. The currency is the U.S. dollar, so U.S. dollar-holders have no currency-exchange risk. Panama City is an international travel hub, very accessible from North America. The flight from Miami, for example, is about 2 ½ hours.

If you can't make the trip down to Panama for the conference, you also have the option of streaming the event live from the comfort of your own home or watching the recordings afterwards.

# PORTUGAL CONFERENCE

The World's Best Place To Retire Overseas

April 19–21 | Carvoeiro Portugal

We've rated **Portugal** as the world's #1 overseas retirement haven for the past eight years.

*This is a beautiful, affordable, welcoming, friendly, and safe country that serves up 3,300 hours of sunshine annually and a mild climate year-round.*

Portugal boasts some of the world's best beaches... and best golf courses... plus glorious Lisbon, one of the world's best cities that nobody talks about.

This is a country with a long and interesting history where you can indulge any interest you could imagine... from boating, diving, and hiking to regular nights out at the theater and museum and gallery afternoons.

The infrastructure is top-notch. This is not the developing world. The health care is world-class... and a fraction the cost of care in North America. Become a resident, and the health care free (no kidding).

English is widely spoken. You would not have to learn a new language if you didn't want to. Residency is easy and cheap... for anyone of any age. And property can be an absolute bargain, both to buy and to rent. Indeed, the cost of everything here is better than affordable... as good as it gets for bona fide first-world living.

This is one of the world's best-kept secrets, a place that will captivate you... and also allow you to preserve your nest egg, the best of the Old World... with history, culture, vineyards, mouthwatering cuisine... all the makings of very good living, including affordable trendsetting lifestyle options for seniors like nothing else available anywhere in the world...

If you can't make the trip to Portugal for the conference, you also have the option of streaming the event live from the comfort of your own home or watching the recordings afterwards.

# COLOMBIA CONFERENCE

Luxury Living On A Pensioner's Budget

Aug. 30–Sept. 1 | Medellin, Colombia

It could seem an unlikely option, but Colombia is one of the world's most beautiful, welcoming, and affordable places to retire overseas. Indeed, the cost of living is so low and the U.S. dollar so strong against the Colombian peso that you could retire to Colombia on a budget of \$1,000 a month or less.

What's perhaps more amazing is that a \$1,000-a-month budget will buy you much more than a comfortable lifestyle. You'll enjoy a full and rich even luxury-standard lifestyle that just wouldn't be possible back home.

*This overlooked destination has it all from springtime weather year round (meaning no need for heating or air conditioning) to world-class and unbelievably affordable health care (eight of the best hospitals in all Latin America are in Colombia).*

Colombia's premier city Medellin offers a rich cultural scene complete with theater, orchestra, world-famous artists, exciting events, and world-class bars, restaurants, and nightspots. Life here is more Euro-chic than developing world. The people are polite and friendly, the streets are clean and safe, the infrastructure is international-standard, and real estate is one of the best bargains on the planet, both to buy and to rent.

If you can't make it to Colombia for the conference, you also have the option of streaming the event live from the comfort of your own home or watching the recordings afterwards.

# SPAIN CONFERENCE

Old-World Cosmopolitan Living On A Budget

Nov. 15–17 | Madrid, Spain

An established haven for foreign investors and expats with great beaches, markets, restaurants, attractions, and fiestas, Spain boasts some of the most affordable cities in Europe, making it an ideal choice if you're looking for an Old-World cosmopolitan lifestyle on a budget.

And, while Spain isn't as cheap as Southeast Asia or parts of Latin America, the cost of living is quite reasonable. A reasonable overall budget for living in Valencia, Spain's third largest city, is US\$1,500 per month.

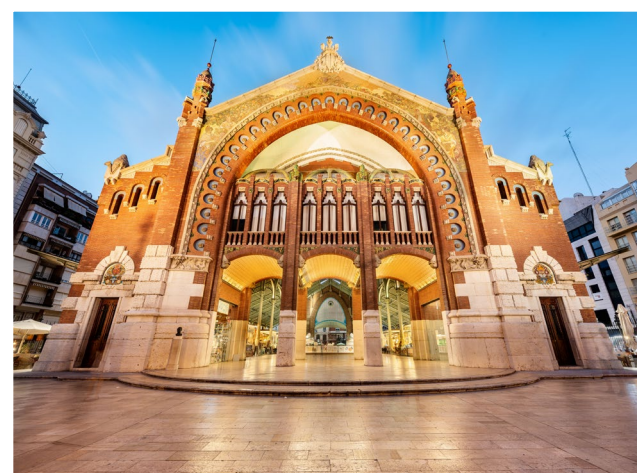

*This country is always ready to take your senses for a drive any-time with its welcoming, colorful people and towns, life here feels like it's under an unyielding flow. It feels spirituous, as this country's fine wine, incredible music, breathtaking sights and places of interest are all deliciously intoxicating.*

Valencia is also a vibrant, accessible, historically interesting, and culturally rich city with a beautiful coastline that, inexplicably, has been overlooked as a serious contender for retirement in the region. It's also home to some of the best beaches in Spain... in fact, in Valencia, city living and beach life go hand in hand, making it one of the best places to live in the Mediterranean.

Property prices in Valencia are almost half of what you would expect to pay in its neighbor Barcelona. In the past, people would look to Barcelona as a place to visit and invest. However, the city's real estate prices have since skyrocketed, making Valencia an attractive alternative.

If you can't make it to Spain for the conference, you also have the option of streaming the event live from the comfort of your own home or watching the recordings afterwards.
